

Living TN had been continuously searching for a new partnership that would further grow their ability to serve the Tennessee community. They are now proud to announce their new affiliation with eXp Realty to finally make that a reality. This alliance will enrich how they perform as a resource and ambassador to Tennesseans.

eXp Realty was founded in 2014 and has already become one of the fastest-growing brokerages in the U.S. and Canada. They utilize spectacular technology and a powerful suite of tools to service their clients, but they were chosen for what lies at their core. Living TN has worked hard to develop a culture that's about more than just real estate, it's about impact. They help individuals and families build legacies, create wealth, and achieve their goals through home ownership. eXp Realty aligns themselves with those same values by focusing on what each property means to the client's future.

"What's most important is the philosophy behind why we do what we do. Buying and selling property can turn into a rigid, uniform process without that. We needed a partner like eXp that would share our passion and understand the true value of what we do in our community," said Daniel Askew, Living TN's CEO.

Responsibly managing their agents is just as important as tending to clients, so Living TN considered that in their search as well. eXp Realty offers unique benefits to their agents that express a dedication to their individual growth. With no desk, royalty, or franchise fees, a high commission rate, and the opportunity to be shareholders, their agents are rightly valued. Living TN's aspiration for their agents is to provide them with the best information and resources, and eXp Realty's cloud office environment will allow them to collaborate with the nation's top industry experts.

Living TN and eXp Realty are excited to see where this affiliation will take them. Tennessee's real estate community couldn't be better served, and agents couldn't be better taken care of. Potential buyers and sellers of commercial and residential real estate are invited to call Living TN at (615) 425-3600 or visit them online at LivingTN.com.
